ICONSERVICES

making **IT** work for you

Icon Solution was established in 2009 with the vision of providing businesses with reliable, cutting-edge technology. Since then, we have developed long-term relationships with educational establishments and world-renowned technology partners thanks to our wide range of services and commitment to technology.

Our range of installation and on-going Technical Support services ensures a rapid response to any client issues and reduces the inconvenience of any 'down-time' at your school or business. We are wholly committed to providing first-class service and solutions to every client we work with.

Above all we are passionate about delivering the highest standard of customer care possible; which is why we consider ourselves professionals in our field.

Thank you,

Yan Percy Seerungum
Technical Director

WHAT WE DO

SOFTWARE DEVELOPMENT

Our team of software developers will help you create, design, launch and maintain software tailored to your business needs.

MANAGED PRINT SOLUTIONS

Looking to delegate your business document output to a reliable partner?
We assess, repair and manage your printers, scanners, photocopiers, faxes and multifunction devices, allowing you to focus on your core business.

IT SOLUTIONS & SUPPORT SERVICES

Our wide range of IT solutions cover the great majority of your business needs, from the more common ones like IT procurement to more select ones like virtualisation. Count on us to also provide remote and onsite support for any issues you may have.

SYSTEM & NETWORK IMPLEMENTATION

We meticulously elaborate, design and install your strategic IT plan and network in as little time as possible, allowing you to get started on business in no time.

TELECOMS SOLUTIONS

Trust our experts to help you set up telecom services such as mobile and fixed telephony and broadband among others.

CYBER SECURITY

NETWORK SECURITY

We protect all your connected devices from threats and attacks of all kinds when you use the internet.

STORAGE SOLUTIONS

Never lose a file again. We set up devices, procedures and protocols to safeguard your data and business.

ACCESS CONTROL

We help keep your business premises safe thanks to cutting-edge technology that manages access to them.

NETWORK & INFRASTRUCTURE

WIRELESS NETWORKS

We help you kickstart your operations by reliably setting up your wireless networks and connecting your devices.

IOT

Want your devices to get smart and connected? We offer home and business automations, install sensors and offer tracking solutions.

DATA CABLING

We offer reliable and safety-compliant cabling solutions for all your devices and configurations.

MANAGED SERVICES

IT PROCUREMENT

We offer hardware and software procurement as well as HAAS and SAAS at competitive prices.

IT REPAIRS

Our team of experts undertakes repairs for laptops, desktops, printers, photocopiers, mobile phones and more

CLOUD SERVICES

We connect your private branch exchange to the cloud for smart remote access from anywhere.

IT SUPPORT

Issues with hardware, software or anything related to IT? Our team supports you remotely and onsite to promptly offer solutions.

IT INSTALLATION

We reliably set up your IT networks, including servers. We also fulfil your virtualisation and upgrades and migrations needs.

TELEPHONY SERVICES

We set up private branch exchanges in your premises to allow for call forwarding and transfers among others

IT BUSINESS SERVICES

Work more efficiently thanks to our smart services such as: the creation of data centres, IT consultancy and accounting and management services.

TECHNOLOGY PARTNERS

DELL   CISCO   Adobe   SOPHOS   Yeastar   Microsoft
